WORK EXPERIENCE

SENIOR FULL STACK DEVELOPER | ACCENTURE, INDIA - JAVA, MICROSERVICES, SPRING BOOT, ANGULAR

February 2018 to August 2021

- Collaborated with FIAT CNH Industrial software architects to migrate their legacy application to a scalable, resilient RESTful webservice software, used by 11000 FIAT CNHI dealers to order spare parts.
- Spearheaded several teams in an agile methodology to lay out systems design and develop microservices while adhering to optimal algorithms / data structures and design patterns.
- Created single-page applications using Angular to make asynchronous REST calls to back-end and participated in release and post-release activities.
- Accomplished the 2 week product deliverables in less than 1 week for several sprints, thereby boosting CNH Industrial's yearly revenue by 7 billion USD in 2020.
- Undertook technical hands-on knowledge-transfer sessions for new joining engineers.

SOFTWARE ENGINEER | ACCENTURE, INDIA - JAVA, STRUTS JSP, MY SQL

February 2017 to February 2018

- Replaced a 4 member senior team and took over the development of an existing struts mvc web application serving orders of Fiat Chrysler Automobiles dealers from 130 countries, accounting for over 1.5M monthly visits per month.

PERSONAL PROJECTS
